Non-Emergency Patient Transport (NEPT)

A guide for patients and carers

0208 401 3972

What is Non-Emergency Patient Transport Service?

Non-Emergency Patient Transport (NEPT) is the ambulance service that can transport patients to and from hospital. It is only provided for patients who have very specific needs which are described below as **eligibility criteria**.

Can I use NEPT?

We have to be very careful to make sure the NEPT is available to those patients who really need it. All patients who need NEPT must be assessed by the Patient Transport Assessment and Booking Team.

The **eligibility criteria** are based on following questions:

Does the patient need **skilled assistance** to transfer them to and from a vehicle?

Does the patient have a disability or condition that makes it **difficult or undesirable** to travel by alternative transport?

Does the patient have a condition where there is a **reasonable possibility of an event needing skilled assistance** happening when travelling?

Does the patient have a disability that could cause a **risk or embarrassment** to themselves or others if travelling by alternative transport?
