DNA—DID NOT ATTEND

DNA – a huge waste. You can help us to prevent this.

You can also help other patients.

What is a DNA? A DNA is when a patient does not attend for a booked appointment.

Cancelling an appointment is simple.

* Phone us on 0208 651 1222 anytime of the day or night and leave a message

* e-mail us at admin@farleymedical.info

* log on to appointments online where all your upcoming appointments are listed and can be cancelled or rebooked for another date or time.

Please consider registering for our free SMS appointment reminder service which will send you a text reminder before your appointment. Someone else will be able to use the appointment even if you cancel at short notice.

Please take a look at our new website, there is lots of useful information for you to read and links to ordering your repeat medication and booking your appointments on line. There is also advice and information on a range of topics.

WHAT DO YOU WANT TO SEE IN OUR NEWSLETTERS?

WE NEED YOUR FEEDBACK AND WOULD WELCOME SOME IDEAS PLEASE

DO PLEASE EITHER LET RECEPTION KNOW OR PLEASE EMAIL YOUR IDEAS AND THOUGHTS TO ADMIN@FARLEYMEDICAL.INFO

DID YOU KNOW WE NOW HAVE FREE WIFI AT FARLEY ROAD?

Do you know that we have a Patient Participation Group at The Farley Road Practice?

What is a Patient Participation Group (PPG)?

Our surgery has a Patient Participation Group at the Practice in order to understand the views of you, the patients and to share information about the Practice with you. It has been a requirement since 1 April 2015 for all Practices to have a PPG and they can become increasingly helpful to patients and healthcare providers alike. No two PPGs are the same and we want to make ours really useful to our Practice and the staff who work there.

The Purpose of a PPG

Our PPG can help improve and develop services within the Practice.

We can help let the Practice staff know what matters most to us.

We have an opportunity to discuss topics of mutual interest with the Practice staff.

We can encourage health and wellbeing amongst our patients.

What do we want to do at our PPG?

Make sure that there is two way communication between us, the patients, and the doctors and other Practice staff.

Make sure that the patients' views are heard by the Practice.

Understand how the NHS is developing and the effect changes might have on our healthcare.

Raise awareness about the PPG and the various activities going on at the surgery such as flu immunisations, use of on line facilities and Open Meetings or about new doctors joining the Practice or new ideas in healthcare.

Provide a forum for patients to meet and support each other.

Encourage more patients to join our PPG to increase the help we can give to the Practice and to allow more people to find out about their health services.

Why should you be involved with your PPG?

You can offer your own perspective on the services provided at the Practice and contribute to their ongoing improvement. We need to make sure that we have a wide range of views and opinions and so need representation from our diverse patients. You can learn more about the way the NHS works and specifically what is happening in Croydon.

The PPG meets formally every Quarter and is chaired by the PPG Chairperson and attended by the Senior Partner with informal meetings in between. We hold an Open Meeting every year and you can sign up for emails about the PPG if you wish.

If you would like to come to a meeting or find out more information, please contact the Chairman, Biman Ghosh, on bandrghosh@hotmail.com or 07905142596.

Our next meetings are at the Practice on January 15th 9.30 – 11.30 for an informal meeting and January 29th 18.30- 20.00 for a formal meeting with Dr Jasper.

BLOOD TESTS

The ordering of blood tests is now on line through our main provider Croydon University Hospital. The new system will hold information about diagnosis and treatment of any patients using the trusts services and will be used by doctors, nurses and healthcare professionals. This single electronic record will dramatically reduce the use of paper notes, meaning that wherever a patient is and whatever service they are using their clinician will be able to see up to date information. For patients who spend time in hospital then go on to be cared for by one of our community teams, this also means that the whole team will have access to the same information.
