## NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the ‘Net Promoter’ scoring methodology to a simpler ‘Percentage Recommended’ and ‘Percentage Not Recommended’ method.

The percentage measures are calculated as follows:

Recommended (%) = 
$$\frac{\text{extremely likely} + \text{likely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$

Not Recommended (%) = 
$$\frac{\text{extremely unlikely} + \text{unlikely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:
